

rstm/rstm-dev/stamp  
-0.9.10/ssca2/createPartition.c

```
graph TD; A["rstm/rstm-dev/stamp  
-0.9.10/ssca2/createPartition.c"] --> B["createPartition.h"]; A --> C["utility.h"]
```

The diagram illustrates a source file, `createPartition.c`, located at the path `rstm/rstm-dev/stamp-0.9.10/ssca2/`, which is responsible for generating two header files: `createPartition.h` and `utility.h`. Two blue arrows point from the source file box to the header file boxes.

createPartition.h

utility.h
