

```
anonymous_namespace  
{oreceager::cpp}::OrecEager  
_Generic::begin
```

```
graph LR; A["anonymous_namespace  
{oreceager::cpp}::OrecEager  
_Generic::begin"] --> B["stm::WBMMPolicy::onTxBegin"]
```

A diagram showing a call from a function in an anonymous namespace to a method in the stm::WBMMPolicy class. The left box is shaded gray and contains the text 'anonymous\_namespace {oreceager::cpp}::OrecEager \_Generic::begin'. A blue arrow points from this box to a white box on the right containing the text 'stm::WBMMPolicy::onTxBegin'.

```
stm::WBMMPolicy::onTxBegin
```
