

print_edge

```
graph LR; A[print_edge] --> B[edge::print]
```

A diagram showing a mapping from a function name to a qualified name. On the left, a gray rectangular box contains the text 'print_edge'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'edge::print'. Both boxes have a black border.

edge::print
